OBJECTIVE

Aspiring Software Developer with proficiency in Java, Python, SQL, and web technologies. Strong problem-solving skills demonstrated through consistent Data Structures and Algorithms practice and multiple development projects. Seeking an opportunity to build scalable solutions, enhance technical expertise, and contribute effectively to innovative software teams.

EDUCATION

Babu Banarasi Das University — Lucknow, India
Bachelor of Technology in Computer Science & Engineering — Expected: Jun 2027
CGPA: 7.12 / 10 (Percentage: 68.71%)

Aditya Birla Intermediate College — Renukoot, India
Intermediate (Class XII) – ***Percentage: 75.0%*** — 2023
High School (Class X) – ***Percentage: 81.5%*** — 2021

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, JavaScript
- **Web Technologies & Frameworks:** Django, HTML5, CSS3
- **Tools & Platforms:** Git, GitHub, Power BI, MS Excel
- **Core Computer Science:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Database Management Systems (DBMS)

SOFT SKILLS

- Teamwork & Collaboration · Problem Solving · Communication Skills · Leadership & Team Management

PROJECTS

AI-Based Food Wastage Detection in Restaurants

Live Deployment Link

- Developed an AI solution utilizing ML models to track and analyze food wastage patterns across restaurant operations.
- Implemented classification frameworks to automate disposal logging, reducing manual sorting time by over 40%.
- Engineered data-driven reporting pipelines that generate actionable operational metrics to optimize inventory overhead.

AdPulse: Advertising Campaign Dashboard

Live Deployment Link

- Built an analytics dashboard to aggregate and evaluate multi-channel advertising performance datasets.
- Analyzed critical digital marketing KPIs (CTR, CPC, CPM) by writing optimized, complex SQL queries across databases.
- Developed 10+ interactive visualizations in Power BI, improving stakeholder reporting and strategic decision-making.
- Automated cyclical reporting features to eliminate manual compilation steps and maximize processing efficiency.

CERTIFICATIONS & COMMUNITY INVOLVEMENT

- **Software Engineering Job Simulation** – JP Morgan Chase & Co.
- **Oracle Cloud Infrastructure AI Foundations Associate** – Oracle
- **Community Member** – Google Developer Group (GDG) & TensorFlow User Group (TFUG) Lucknow (Engaged in meetups, workshops, and discussions on ecosystem advancements and Machine Learning).
- **LeetCode Badges:** Earned both the **100 Days Badge** and **50 Days Badge** for consistent, algorithmic problem-solving.
- **CodeForge 2025:** Active Participant.

LANGUAGES

- English (Professional Proficiency) · Hindi (Native Proficiency)
